

**NATIONAL INSTITUTE OF SCIENCE EDUCATION & RESEARCH
(NISER)
BHUBANESWAR**

**TELEPHONE DIRECTORY
JANUARY 2010**

PROCEDURE FOR USERS FACILITIES

The details of available facilities in our EPABX and procedure to activate them are given for user's convenience. The callers from out-side the campus can also use the extension number as your direct number by prefixing 0674 – 230 * * * *. The same can also be used to make a call through mobile. The procedure to access other facilities is as follows:

Call Transfer

An internal or external call received / originated by an extension user, can be transferred to other extension

To transfer a call:

Step - Action - You get

1. From SLT, press the **FLASH** key followed by extension number. Ring Back Tone.
2. If the desired extension is found busy or no reply or invalid extension number is dialed by mistake, you can take back the call by pressing the **FLASH** again.
3. While hearing the ring back tone, wait for the answer.
4. If you get an answer from the dialed extension, announce the call & hang up.

Call will be transferred & both the parties will be connected.

Call Consult

This feature allows you to consult a third party while conversing with an external or internal caller. While consulting, the original caller will be put on hold and he will get HOLD On MUSIC.

Step -Action -You get

1. While talking to a party, press the **FLASH**. Confirmation tone
2. Dial the second party number (Extension or trunk) Talk with the second party
3. If the second party disconnects. You will get connected to the first party.
4. Or you can make toggling between first & second party by pressing the **FLASH**.

You get connected to the other party and the currently connected party goes on hold.

Call Forwarding

Calls arriving at your extension can be forwarded to any other extension. Further the forwarding can be done for all calls arriving at your extension or only if your extension is busy or only after a predetermined number of rings at your extension

To Activate: CALL FORWARD ALL - 866

Step -Action -You get

1. Dial 866 + Ext No. where you want to forward your calls. You will get confirmation tone.
2. Release handset/speaker.

Cancellation of calls forwarding all calls:

Step -Action -You get

1. Dial 866 + Own Ext No. You will get confirmation tone
2. Release handset/speaker.

Call forwarding on Busy or no Answer:

Step -Action -You get

1. Get into Own Supervisory Mode. (865+ psw)
2. Dial 3 + X + Ext No. where you want to forward your calls. Confirmation tone.
3. Hang up. Released.

Where the value of 'X' will be 2 - Call forward on No answer (after 20 seconds).

3 - Call forward when busy.

To Cancel Call Forwarding:

Step -Action -You get

1. Get into Own Supervisory Mode & dial 50. You will get confirmation tone.

Call Forward External

An extension user can forward his extension calls to any predefined external telephone number. This feature will work only if the incoming call is through level DID.

To activate the same:

Step -Action -You get

1. Dial 4262 + Trunk access code + External Tele No. + **FLASH**. You will get confirmation tone.

Cancellation of calls forward external:

Step -Action -You get

1. Dial 866 + Own Ext No. You will get confirmation tone.
2. Hang up. Released.

Auto Call Back - 8

To activate Call back on a busy line:

Step -Action -You get

1. Dial the extension number or the PSTN selection code. If called extension or trunk is busy, you get busy tone.
2. On getting busy tone, dial `8', you will get confirmation tone.
3. Release handset/speaker.

Now as soon as busy extension or trunk gets free, your key phone will start ringing. After lifting your handset, an extension on which auto call-back was set, will start ringing. If auto call back is on PSTN, trunk dial tone will be allotted to you on lifting the handset.

Call Pick-up-(RINGING) - 864

This feature allows you to answer other ringing extensions within the system.

Step -Action -You get

1. Dial 864 + ringing extension No.

SELF RING Test - 4261

An extension can check its extension for the ring whether his phone is ringing or not

Step -Action -You get

1. Dial 4261. You will get confirmation Tone.
2. After 20 sec. your extension will start ringing

Cancellation of self ringing:

Step -Action -You get

1. Lift the handset/speaker. You will get dial tone.
2. Release handset/speaker.

CO (BSNL) CALL FACILITY- 0

Step -Action -You get

1. Lift the handset/speaker and dial 0. You will get BSNL dial tone.
2. Dial your desired Tele/Mobile No and talk.

MEET ME CONFERENCE - 3941

Meet Me Conference

Using this feature, desired extension users can establish a conference just by dialing the code.

Max 64 user can participate in this type of conference.

To enter into Conference room:

Step -Action -You get

1. Lift the Handset. Dial Tone
2. Dial '3941'. You will be entering into conference room.

OR

You can establish conference by calling parties

1. Call 1st party + Hold/Flash+3941; Call 2nd party + hold/Flash +3941

And go on up to you want (max-64) (at the moment called party will enter into conference room after dialing 3941by you.)

MULTI-PARTYCONFERENCE- 83

You can establish a conference call, which allows several users to carry on a multiparty conversation. Maximum 64 parties are permitted in conference call. The parties in a conference call can be either internal extensions or external parties. Multi conference can be established in a various combination like; 8 party 8 numbers, 16 parties 4 no. etc.

Step & Action

1. Make internal or external call & park (**CALL PARK - Hold+872**) it. You will be free.
2. Make another internal or external desired call & park it. You will be free.
3. You can make total 63 calls like this & park all the calls. You will be free.
4. Dial '83' to start the conference. Multiple party conference is established.
5. Press **RLS** key. Conference will be terminated.

Note: Conference will get over when the initiator disconnects. If a participant of the conference wants to leave, he may hang up, conference will not be disturbed.

DND (Do Not Disturb)- 59

To activate the same:

Step -Action -You get

1. Dial 872+ own pass code (0777) + 59
You will get confirmation tone.

Cancellation of calls forward external:

Step & Action

1. Dial 872 + Own pass code (0777) + 50 You will get confirmation tone.
2. Release handset/speaker.

Change Own Pass Code 4223

Personal Pass code

User has a unique pass code. This pass code will allow you to get into your own supervisory mode to activate various features like changing your dial mode, storing numbers in your personal bank, setting hotline etc. The default pass code for all the extensions in the system is 0777. You can change this pass code at any time. Changing of the pass code must be done from your own telephone. A pass code consists of 4 digits.

To change personal pass code:

Step -Action -You get

1. Lift the handset Dial tone
2. Dial 4223 + Old PW + New PW. Confirmation tone
3. Press **RLS** Key or Hang up.

_Caution: Once a pass code has been defined, the code is known only to you. If you forget the access code, you will not be able to get into your own supervisory mode. In case you forget your pass code, you may take the help of system administrator

Dynamic call control

The system offers a unique facility to all extension users to prevent misuse of calls from their extensions. By using this feature, an extension user can control his dynamic locking for direct outward dialing. The highest dial mode that any extension can avail pertains to that which has been provided by system administrator through system programming.

To Change your extension's dial mode:

Step -Action -You get

1. Lift the handset. Dial tone.
2. Dial 4224 followed by your extension password & desired dial mode. Confirmation tone.
3. Press the **RLS** key.

The levels for the dial mode and their corresponding values are given below:

0 For no external call.

1. Programmable & by default only local. (Local Land line)
 2. Programmable & by default only local. (Local Land line + Local mobile)
 3. Programmable & by default only local. (Local Land line + Local mobile +Local all Orissa+)
 4. Programmable & by default Local / STD. (All STD)
 5. Programmable & by default Local / STD & ISD.
- All Local / STD / ISD / Collect Call also

For every extension, a dial out level is defined through system programming also. Through dynamic control, a user can obtain a dial out level only up to the dial out level, which is defined through the system programming.

Alarm

To set an alarm:

Step -Action -You get

1. Dial 875 + HH + MM Confirmation tone
2. Press the **RLS** key. Line gets released

To cancel an alarm:

Step -Action -You get

1. Dial 875 + HH + 60 Confirmation tone
2. Press the **RLS** key. Line gets released

User will get ring at the set alarm time. On lifting your hand set, you will get hold on music. The alarm will ring at your extension for a maximum duration of about 45 sec. If your telephone is not lifted within this period, the alarm will be diverted to the alarm port of the system. System provides one reminder of alarm after 20 sec.
