

NISER OUTREACH

TEACHERS'-TRAINING WORKSHOP

25TH TO 28TH SEPTEMBER 2023

The NISER Outreach Cell is committed to conducting an array of activities centered around Science Education and skill development. Its core mission is to adeptly convey the significance and fundamental principles of Science to a broader spectrum of individuals. Through these concerted endeavors, the Cell makes a positive contribution to science education and technology, thus occupying a pivotal role in advancing the comprehensive development of society. This year, the Outreach Cell is set to inaugurate a Teachers' Training Workshop at NISER, adding yet another dimension to its impactful initiatives.

The first Outreach Teachers' Training Workshop serves as an inspiring platform designed to empower educators at school systems with innovative techniques and impactful strategies to communicate the concepts of science to school students effectively. This workshop is a dedicated effort to equip teachers with the tools they need to bring the excitement and relevance of scientific concepts to students.

NISER OUTREACH

Through interactive sessions, hands-on activities, and collaborative discussions, participants gain insights into ensuring that science becomes an inclusive and enjoyable learning experience for all. Led by seasoned professionals and experts in both education and science communication, this workshop offers a unique opportunity for teachers to enhance their pedagogical skills while fostering a deeper appreciation for science.

The first NISER Outreach Teachers' Training Workshop for the academic year 2023-24 is scheduled to take place from the 25th to 28th of September 2023. Participants will include around 54 teachers from government schools from various districts in Odisha. Over the four days, these teachers will actively engage in the rigorous training workshop, enriching their skills, thus significantly contributing to a more effective and dynamic educational environment for the students.
