Subject: [Starpapers-l] STAR Physics Analysis Coordinator
Dear STAR Collaborators,

After discussing with many members from the collaboration, I nominated Bedanga Mohanty as our new Physics Analysis Coordinator (PAC). This nomination has been discussed and unanimously agreed to by the STAR Advisory Board.

Effective today, Bedanga Mohanty will be the STAR PAC. As part of the management, working with the PWGs, he will ensure the quality of the STAR data analysis and publications.

I would like to thank Jamie Dunlop for his leadership and hard work as the PAC over the past six years.

Best regards,

Nu Xu
