Bhubaneswar**

COURSE ASSESSMENT PROFILE

Student Course-Cum-Teacher Evaluation Report

Year : 2014-2015

Term : Even Sem

Instructor : Dr. Himansu Sekhar Biswal

Course Name : PHYSICAL CHEMISTRY LAB-II

No.of respondents : 15

Student-1

The best part was that the teacher had taken effort to do the experiment previously to ensure smooth running. Due to limited number of instruments as well as few breakdowns encountered, overall pace was slowed, but the course was well designed and in sync with most theory courses.

Student-2

Laboratory instruments were not working during most of the experiments. It would be better if the teacher explain the theory in a classroom properly.

Student-3

The spectroscopy experiments were really great and helped us learning more from general lab synthesis.

Student-4

good teacher ..very much dedicated towards course and student ..which is very much motivating about him

12)	Overall Assessment : TEACHER	Outstanding - 9 Good - 6 Average - 0 Below Average - 0 Not Answered - 0	15	3.60
13)	Overall Assessment : COURSE	Outstanding - 5 Good - 10 Average - 0 Below Average - 0 Not Answered - 0	15	3.33
